## SPECIAL STOCKS SHOW DECIDED BULLISH TREND

### Death of Kitchener Does Not Greatly Affect Market; Motor Shares Show Less Activity.

(BY MORNING JOURNAL SPECIAL CREDS WRIT)  
New York, June 6.—Special stocks as well as representative issues were elevated again today on an expansion of professional activity. The market's course was altogether inconsistent, however, in that it ignored the disaster to the British military administration at the outset but declined later on the favorable auguries conveyed in a number of increased dividends.

The reversal of the later session was concurrent with an advance in the market for the British military administration in eighteen months. Local banks recently expressed their disapproval of the movement in certain of the more volatile issues and the hardening of loan rates may not be without its significance in that quarter.

Motor stocks were less active and more irregular than yesterday. Willys-Overland made an extreme recovery of eight points to 312.

Stearns repeated their familiar performance of mounting to higher levels. South Porto Rico common and preferred touched 236 and 120, respectively, with 8 1/2% for American Bond.

Some of the better known war issues like Crucible Steel and Baldwin Locomotive had their narrow flights and Bethlehem Steel gained six points, but United States Steel lagged in characteristic fashion, developing heaviness at the close.

Opinion was only mildly responsive to higher dividends. Norfolk & Western fastened its claim to leadership of the rails on a further advance of 2 1/2 to the new high price of 136 1/2.

Total shares of stock amounted to 32,740,000.

United States registered 4 1/2% national coupon 115 and Panama 8 1/2% 140 per cent on call.

Closing prices:

|                                |                 |

CHICAGO BOARD OF TRADE.  
Chicago, June 6.—Wheat prices

rose to a material extent today, chiefly as a result of foreign buying of futures here and because of bullish advice about domestic crop conditions. The market closed strong, 2 to 2 1/2 to 2 3/4 net higher, with July at \$1.05 1/2 and September at \$1.07 1/2. Corn gained 1 to 1 1/4 and oats 1/4 to 1/2. In provisions the outcome was a setback of 2 1/2 to 2 3/4.

Options varied greatly as to the cause of the European purchase of wheat futures here. Theories that the disaster to the British military administration at the outset but declined later on the favorable auguries conveyed in a number of increased dividends.

The reversal of the later session was concurrent with an advance in the market for the British military administration in eighteen months. Local banks recently expressed their disapproval of the movement in certain of the more volatile issues and the hardening of loan rates may not be without its significance in that quarter.

Motor stocks were less active and more irregular than yesterday. Willys-Overland made an extreme recovery of eight points to 312.
